

What these powders contain

Each sachet contains powder impregnated with 0.002ml of the active ingredient tincture of matricaria (*Matricaria recutita* L.) flower. Also contains lactose. Extraction solvent: Ethanol 70% v/v

How to use these powders

Not recommended for use in babies under 3 months.

For use in teething infants only. Children 3 - 6 months: half the contents of the sachet dry on the tongue in the morning and the other half in the evening. The sachet may be divided in half by emptying half the contents onto a teaspoon and retaining the other half in the sachet.

Children over 6 months: pour contents of 1 sachet dry on the tongue morning and night. The dose can be repeated every 1, 2 or 3 hours if needed, up to a maximum of 6 doses in 24 hours until improvement. Do not exceed the stated dose. If symptoms persist for more than 7 days, speak to your doctor. **If you give your child more than you should,** it may cause diarrhoea. If this happens, stop using this medicine and speak to your doctor or pharmacist.

Possible side effects

Like all medicines, this medicine can cause side effects, although not everybody gets them.

Possible side effects: allergic reaction which may include rash, tongue sores.

Reporting of side effects

If your child gets any side effects, talk to your doctor or pharmacist.

This includes any possible side effects not listed in this leaflet. You can also report side effects directly via the internet at www.mhra.gov.uk/yellowcard.

By reporting side effects you can help provide more information on the safety of this medicine.

Before using these powders

Do not use if your child • is allergic to tincture of matricaria, lactose or to plants of the Asteraceae/Compositae family such as daisies, marigolds or artichokes • has an intolerance to some sugars, unless your doctor tells you to (this medicine contains lactose).

Warning: This medicine may cause an allergic reaction or make existing conditions worse in children who suffer from allergic type conditions (e.g. asthma).

A traditional herbal medicinal product used for the relief of teething pain and symptoms associated with teething such as sore and tender gums, flushed cheeks and dribbling based on traditional use only
