Eurax cream

Suitable for adults and children; consult your doctor before use on children under 3 years of age.

For relief of itching and skin irritation caused by:

- Itchy dermatitis
- Dry eczema
- Allergic rashes
- Hives, nettle rashes
- Chickenpox
- Insect bites & stings
- Heat rashes
- Sunburn
- Personal itching

Do not use: in or around the eyes, on broken skin, for weeping skin conditions or if you are sensitive to any of the ingredients.

Cautions: Eurax Cream is not recommended in pregnancy. Consult your doctor or pharmacist before using Eurax Cream if you are breast feeding, or suffering from genital itching. This product contains stearyl alcohol which may cause local skin reactions (e.g. contact dermatitis) and methyl hydroxybenzoate which may cause allergic reactions (possibly delayed).

Directions: Apply to the affected area 2-3 times daily. Irritation will be relieved for 6 to 10 hours. If symptoms persist consult your doctor. Eurax can be used for children. For children under 3 years of age consult your doctor before use and do not apply more than once a day.

Unwanted effects: Eurax cream may occasionally cause skin irritation or allergy. If this occurs or if you experience other symptoms stop using the product and consult your doctor. If Eurax is accidentally swallowed, contact your nearest hospital casualty department or tell your doctor immediately.
