

Why use Oilatum Cream? Oilatum Cream is an Emollient (softening, soothing agent) used in the treatment of atopic eczema, contact dermatitis, senile pruritus, and dry, sensitive skin; including ichthyosis (a scaly dry skin condition). It will help to moisturise the skin after washing and is suitable for people allergic to lanolin.

Caution: Avoid using the product if you are sensitive to any of the ingredients.

*Cetostearyl alcohol and potassium sorbate may cause local skin reactions (eg contact dermatitis).

FOR EXTERNAL USE ONLY

KEEP OUT OF THE REACH AND SIGHT OF CHILDREN.

DIRECTIONS

Use as often as required, or as directed by your pharmacist or doctor. Apply to the affected area and smooth it gently into your skin in the direction of hair growth. Oilatum Cream is especially effective when used after washing to prevent your skin from feeling or becoming dry. If breast-feeding, ensure you wash all traces from your breasts before you begin feeding.

This product may cause rash or skin irritation. Speak to a doctor or pharmacist if you experience any unwanted effect or if you are unsure how to use this product.

Do not use the product after the expiry date.

Do not store above 25°C.
